Part III DETAILED ACTION

Notice to Applicant(s)

1. This action is responsive to the following communications: amendment filed on 12/9/02
2. This application has been reconsidered. Claims 1-35 are pending.

Reissue Applications

3. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

The 3.73(b) and consent are defective. The combined statement does not establish the percentage of ownership, i.e., "the entire right, title and interest is invested in.....". a new 3.73(b) and consent statement is required.

4. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Allowable Subject Matter

5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a method of processing a print job in a printing system including a printing machine for producing at least one document from the print job and a transmission job originating station which transmits the document to the printing machine for printing by creating a link between a troubleshooting subsystem and a confirmation destination located remote from the transmission job originating station in response to an event of one or more difficulties occurring during the processing step, and performing, with the troubleshooting system via the link, a selected operation on the print job in response to an input from the confirmation destination for remedying the difficulties as claimed in claim 7. Similar features are claimed in claims 1, 29, 30, 31, 34, and 35. Therefore, claims 1, 29, 30, 31, 34, and 35 are allowable over the prior art of record for the same reasons.
